

Helen Heap	Co-opted Governor
Term of Office	01/09/2016 – 31/08/2020
Meetings Attended This School Year	

I run a Liverpool based social investment consultancy, which I established after a successful career in international fund management. My work with social organisations and investors involves researching the market for social finance, assessing business plans, and the measurement and reporting of social value.

I have over 25 years' experience working in financial services and more recently I have applied my knowledge, experience and skills within the third sector.

Key contributions to the governing body come from a desire to ensure that every young person achieves their full potential, my knowledge of finance, and my ability to apply analytical skills in a wide range of circumstances.
