Our regular breakfasts aim to forge links with the business community, to raise awareness of the school and so that we might find ways to work together in the future. We also aim to provide a regular networking opportunity for the business community.

Each of our breakfast events start with the networking opportunity and are followed by a second session which varies each time (attendees can chose whether to attend just the networking or both sessions).

During the academic year 2017/18 we will be offering the business community an opportunity to lead a session. These sessions will alternate with sessions led by the school. If you would like to present at a session please contact Anna Jones on anna.jones@deyeshigh.co.uk
